*"Sustainability?  
Of course! At our  
winery, we think in  
terms of generations."*

**Johannes Hiller-Jordan**

*"Wineries are not  
created overnight; they  
are shaped by  
generations into what  
they are today."*

**Simone Hiller-Jordan**

## **Tradition & Innovation**

Since 1858, our estate has nurtured and passed down viticultural expertise through generations. This rich heritage now inspires Simone & Hannes, the winemaking couple steering our modern family winery. Their craftsmanship yields wines of refined elegance and structure, eloquently expressing the year, climate, soil, and winemakers' artistry. These terroir-typical creations are designed to leave lasting impressions, each sip a memorable experience.

## **Soil & Wine**

In Pulkau, the Bohemian Massif of the Waldviertel meets the Molasse zone of the Weinviertel, creating a unique and diverse tapestry of soils that yield expressive wines. Our portfolio extends from peppery Grüner Veltliners and elegant single-vineyard wines aged in granite barrels, to characterful red wines matured in oak casks, bottle-fermented grower's sparkling wine, and a fun, bubbly non-alcoholic option for children.
